

CHIRAG GOEL

Aspiring Software Developer | MCA Student

Greater Noida, Uttar Pradesh | 9368439595 | officialchirag1812@gmail.com | [Chirag-LinkedIn](#) | [Chirag-Portfolio](#)

PROFESSIONAL SUMMARY

Motivated MCA student with strong analytical skills and working knowledge of Java, C++, MySQL, and Web Technologies. Developed academic applications using Object-Oriented Design and database management principles. Seeking an entry-level Software Developer role to contribute effectively to scalable, real-world projects.

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027

Noida Institute of Engineering and Technology (NIET), Greater Noida

Bachelor of Computer Applications (BCA) in Computer Science 2025

Silver Bells Institute of Higher Education, Maa Shakumbhari University — 75.77%

Class XII (Commerce) 2022

Satyanarayana Inter College, Shamli | UP Board — 71.60%

Class X 2020

Satyanarayana Inter College, Shamli | UP Board — 75.83%

TECHNICAL SKILLS

Programming Languages: Java, C, C++, SQL

Web Technologies: HTML5, CSS3, Responsive Web Design

Database: MySQL, Relational Database Design

Core Concepts: Object-Oriented Programming (OOP), Data Structures, DBMS, Software Testing

Tools & Platforms: VS Code, Git, GitHub

PROJECTS

Explore India - Travel Planner Website | HTML5, CSS3 June 2026 – July 2026

- Built a **6-page responsive travel website** featuring destinations, booking, gallery, and contact sections.
- Designed **15+ UI components and forms** for a user-friendly browsing experience.
- Used **Git and GitHub** for version control and project management.

Smart Parking Management System | Java, Object-Oriented Programming Feb 2026 – Apr 2026

- Developed a Java-based parking management application to manage parking allocation and billing for **50+ parking slots**.
- Applied OOP concepts including **inheritance, abstraction, encapsulation, and polymorphism** to create a modular application.
- Implemented **Java Collections and Exception Handling** for efficient data management and error handling.

Appointment Scheduling & Doctor Availability System | DBMS, SQL Jan 2026 – Apr 2026

- Implemented **Java Collections and Exception Handling** for efficient data management and error handling.
- Wrote **SQL queries and ACID-based transactions** to manage doctors, patients, appointments, and availability records.
- Applied **database indexing and relational database concepts** to improve data organization and retrieval efficiency.
